

## Battery Turbo Air Blower – DUB362PG2

Powerful and impressive leaf blowers combine performance, efficiency and environmental friendliness in one machine. The blower clear leaves as well as light rubbish and other debris in hard-to-reach places, such as under the park benches or in corners quickly. The battery-powered leaf blower can also be used in noise-sensitive areas such as residential areas, close to schools, kindergartens and hospitals.

**DUB362PG2** – Handheld Cordless Turbo Air Blower comes with variable speed control and telescopic tube.

Unit includes 2 x 18V/6Ah lithium-ion battery, 2-port fast charger and shoulder belt.
