Battery-Operated Mini Floor Scrubber Drier

LAVA 280B is the mini-scrubber with great performance. Its special feature, the Reverse Dry System (RDS) allows the LAVA 280B to clean and easily dry areas other machines just can't reach.

Thanks to an innovative system of soundproofing, it allows the operator to work in sensitive areas because the ECOSELECT function reduces the noise level of 1dB.

Light and easy to handle. It is designed to meet the needs of daily cleaning especially in hard to reach spaces. Perfect for HORECA, cleaning contractor, and for all areas where it is necessary to clean up to 1000 m².

Ergonomic and innovative control panel and adjustable handlebar.

Easy emptying operation and tank cleaning thanks to its large opening

Manoeuvrable and compact design; machine can be stored, transported and parked in just few seconds and in any space

Rechargeable battery in 1 hr optimises working time

Key Features

- RDS (Reverse Dry System) : Forward Drying & Rear Drying
- Guaranteed productivity by a 50-minutes autonomy (standard battery) with two washing cycles
- ECOSELECT ; lower consumption, more silence
