

MONSOON

Industrial Steam Cleaner

The Monsoon ST18 and ST30 Industrial Steam Cleaners are powerful steam generators, capable of producing continuous steam at up to 180°C for heavy duty degreasing, cleaning, disinfecting and sanitizing all types of hard surfaces, while using minimal water for an almost dry cleaning process. The use of powerful 18kW or 30kW electric boilers eliminates fumes caused by diesel burners. It is highly suited for food, pharmaceutical, engineering, chemical and mechanical industries, and applications where high water usage is not possible.

- Large water tank (25 litres) & detergent tank (5 litres for long duty)
- Refilling of water possible while machine is in operation, allowing for continuous duty.

- AISI 304 stainless steel body

- Full Discharge valve for boiler

- Non-marking rubber wheels, with brake

- Full control panel with low voltage circuits for safety

- Temperature regulator allows precise heat control

- Complete standard accessories set with 5m hose

- Other accessories, extended hoses and lances upon request

		ST18	ST30
Max Steam Temperature	°C	180	180
Max Steam Pressure	bar	10	10
Power Load	W	18000	30000
Power Supply	V/Hz/~	400 /50 /3	400 /50 /3
Steam Production	kg/h	22.5	44.5
Water/Detergent Tank Capacity	ltr	25 / 5	25 / 5
Dimensions (L x W x H)	cm	1130 x 700 x 800	1130 x 700 x 800
Weight	kg	100	100

- Other high pressure cleaners also available
