Made in Sweden

better products
cleaner environment

Toolflex Tools Storage System is a range of simple, flexible tool holders that helps users efficiently organize, store and quickly access a wide variety of tools in your home, for example in the garage, storage room or cleaning scrub.

The holders can easily be moved sideways and make room for new holders and tools without making new holes in the wall. The rail can be lengthened with a 50 or 90cm rail.

Mounted on the wall with included screws and anchors, Toolflex holds utensils and tools stably, free from the floor and wall. Made from recyclable materials, Toolflex is durable for both indoor and outdoor use.
