

# TYPHOON

## Carpet Care Systems

## Hot Water Spray Extraction Cleaner

When only the extra cleaning power of hot water can remove food stains and heavy soil from carpets and upholstery, use TYPHOON Hot Water Spray Extraction Cleaners. These highly functional models incorporate many performance and utility enhancements such as high capacity polyethylene tanks for greater robustness, and drain hose to provide effortless emptying of tanks.

**TYPHOON SE20** is a compact and easy to carry spray extraction carpet/upholstery cleaner which specially designed for small and medium areas of carpets and floors.

Switch from cleaning carpets to hard floors with a simple turn of the lever.

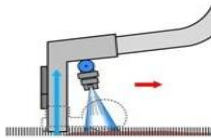

**TYPHOON SE30** is a compact and highly maneuverable, making it ideal for cleaning offices or retail stores with narrow aisles, cinemas and even transport vehicles. It can be converted into a hot water unit quickly when attached with the optional HT1800 heater.

**Optional accessory**  
1800-watt instant hot water unit (HT1800)

**TYPHOON SE60** comes with a 1800W instant heater. The hot water it produces effectively breaks down food stains and heavy soils which the quiet but powerful suction quickly removes. This machine is ideal for hotels, restaurants and other demanding applications.

Spray and extract in a single pass.  
Perfect for light duty/regular maintenance of floors.

**TYPHOON SE70** is a professional instant hot water carpet extractor with 2 vacuum motors for fast cleaning of big areas of carpet. It comes with bigger tank capacity for large area.

Quick-disconnect nozzles

## The Ideal Equipment for Deep-Down Carpet and Upholstery Cleaning

TYPHOON spray extraction cleaners provide gentle but effective cleaning of carpet and textile upholstery. These machines work by spraying cleaning solution into the carpet to loosen the dirt and then vacuuming away the dirty solution all in a single pass. Extraction cleaning with a good detergent revives fabric pile, restores colours, eliminates dirt & bacteria and extends textile life.

**TYPHOON SE2** is ideal for small carpeted areas, rugs and upholstery in homes, shops, hotel rooms and car interiors. The lightweight cleaner is amazingly easy to operate.

**TYPHOON SE4** is designed for the professional to clean large carpeted floors. The two powerful vacuum motors, combined with large 25L detergent and 60L recovery tanks, provide efficient cleaning with minimal interruptions to refill detergent or empty recovery tanks.

### Technical Specifications

		SE2	SE4
Vacuum Motor	W	1200	2 x 1200

Spray/suction  
floor nozzle  
with 4-jets

**KS02510**  
S-tube with  
spray trigger  
for KS00700

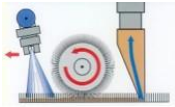

## Carpet Care Products

TYPHOON TURBODRYER incorporate powerful motors to deliver high velocity air for speeding up the drying of carpets, floors, upholstery and walls. Both NT610 and ST810 boast of robust rotor molded housing for durability; 3-speed options for varying requirements; and cable wrap feature for neat storage. The top end ST810 also comes with retractable handles and wheels for easy transportation.

Working forward clean  
up to 600 sq meters/hour

**TYPHOON SE75T** is a self-propelled machine designed to clean very large areas of carpet. It washes, brushes and dries a stripe of 50cm of carpet, going forward with adjustable speed. The differential of the driving motor allows the machine to turn without effort, giving it a good maneuverability even in narrow areas, as for example in corridors. The pressure of the rotating brush and the water flow sprayed on the carpet can be regulated. This machine is ideal for cleaning companies, hotels, conference halls, banks and big offices, shopping centers, airports and all places with vast carpet surfaces.
