Type	Electric
Travel Speed	7 - 14km/hr
Load Capacity	300kg
Towing Capacity	1,000kg
Overall (LxWxH)	1904 x 817 x 1070mm
Battery	4 x 6 Volts
Turning Radius	1938mm

Made in Korea

Improve productivity and ease your manpower crunch by using **eKart 800** to tow large and heavy garbage bins around the estates, even up slopes.

With its three wheel design enabling a tight turning radius, **eKart 800** can manoeuvre around HDB estates, condominiums, warehouses, industrial complexes, resorts, hotels, shopping malls, hospitals and other commercial complexes efficiently and effortlessly.

Designed for versatile applications, towing of bins as well as a form of transport, it provides dependable solutions to tough challenges. With its all welded steel unitized body and frame, **eKart 800** is built to last for years of use.
