

AUTOVA

Autoscrubber Detergent

Product Description

Autova is a powerful detergent for cleaning floors where heavy soil and stains are usually found. It is formulated with low foam surfactants, making it especially suitable for use with auto scrubbers, or wet/dry vacuum cleaners after other forms of mechanical scrubbing. Foam does not build up in the recovery tank and so does not inhibit tank capacity or damage the vacuum motors.

It also has a pleasant fragrance that provides a refreshing scent after cleaning the floors.

Areas of Use

Autova is highly suited for mopping or mechanical scrubbing of floors in all industrial and commercial applications such as factories, warehouses, shopping malls, train stations and other public areas.
